SUMMARY OF ASSESSMENT (Please tick appropriate box)/ Ringkasan Penilaian

	Likert Rating (L)					Weightage (W)	Marks (L X W)
	Poor	Inadequate	Acceptable	Good	Very Good		
1. Completeness of project background	1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>	2	<input type="checkbox"/>

Comments		
1.	Is the title appropriate?	
2.	Are the statement of issues relevant?	
3.	Is the concept of study robust?	
4.	Is the literature current?	
5.	Is the literature relevant?	

2. Research Approach and Technical Objectives	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	2	<input type="checkbox"/>
---	--------------------------	--------------------------	--------------------------	--------------------------	--------------------------	----------	--------------------------

Comments		
1.	Are the objectives of study appropriate?	
2.	Are the research questions or hypothesis consistent?	
3.	Is the research design appropriate and relevant?

---	---	---	---	---	----------	---

Comments	
1.	Does the project leader have suitable research qualification?
2.	Has the project leader conducted and completed other researches?
3.	Is the research team suitably qualified?
4.	Have they conducted and completed other related research projects?

5. Utilisation of existing/available infrastructure

1	2	3	4	5	1	<input style="width: 40px; height: 20px;" type="text"/>
---	---	---	---	---	----------	---

Comments	
1.	Will the researchers be using available resources and infrastructure?
2.	Have they attempted to reduce cost by using sites nearest to the place of work?

6. Time Planning

1	2	3	4	5	1	<input style="width: 40px; height: 20px;" type="text"/>
---	---	---	---	---	----------	---

Comments	
1.	Does the researcher provide a reasonable timeline to complete the study?
2.	Is the milestone thoroughly thought out?

7. Overall Assessment

Comments	
1.	How complete is the project background?
2.	Are the approach, objectives and technical robust?
3.	How valid is this project?
4.	How qualified and experience is the team?
5.	How well does the team utilize existing and available infrastructure?
6.	Is the time planning reasonable?

SUMMARY OF ASSESSMENT

1. Completeness of project background

Is the literature review that gives the background adequate, current and relevant to the proposal? Is the statement of the issues and problems to be addressed sufficiently clear to the committee? Is the title an accurate one for the proposal?

2. Research Approach and Technical Objectives

The research approach should be consistent with the objectives and the scientific and practical aspects of the research methodology. Consider the approach to data collection, data analysis and applicability of the proposed equipment.

3. Viability of Research

Are the issues to be addressed realistic and narrow for 12-36 months study? Is the methodology (the procedure and the methods to be applied in the study) current, reasonable, adequate and appropriate? The Evaluation Committee should assess this by taking into consideration the risks of support equipment failure, inadequate technical support, etc.

4. The Experience, Qualifications and Availability of Research Team

The reviewer should consider the relevant experience and background of the key projects individuals and co-researcher. Have they successfully completed related projects? The reviewers' evaluation should be based on the evidence contained in the proposal pertaining to their experience, availability and the indicated amount of effort by the principal investigator and team.

5. Capability of project leader

Has the applicant conducted relevant research in the area/field of specializations? Has the applicant published within the proposed area? Are his/her previous works relevant to the current proposal? If the applicant is a beginner, please indicate so as special consideration is always given to new staff to start them into research.

6. Capability, appropriateness and availability of research team

Are the co-researchers in the relevant area? Are there sufficient grounds given to justify recruitment of more than one project assistants?

7. Appropriateness of cost estimates

Is the budget reasonable and acceptable?

8. Utilization of existing/available infrastructure

The Evaluation Committee should ensure that the applicant reduces to a minimum any call upon outside facilities and as far as possible and within the context of the research that the applicant intends this must mean confining the research to the closest available sites to their campus.
